A Computer Use Agent Tool for Platform-Agnostic Software Testing Automation

Try Pitch
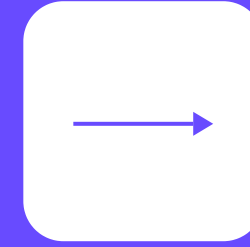

Problem

Main Pain Points

- ## Fragility of Existing Testing Tools

  Current testing tools are often dependent on DOM selectors or API hooks. This means that even minor changes to the user interface (UI) can break the tests, leading to a need for constant and time consuming maintenance.

- ## Fragility of Existing Testing Tools

  Current testing tools are often dependent on DOM selectors or API hooks. This means that even minor changes to the user interface (UI) can break the tests, leading to a need for constant and time consuming maintenance.
